

# MAKING SPACE 365

MAXIMISING THE POTENTIAL OF YOUNG PEOPLE THROUGH  
CREATIVE AND CULTURAL ENTREPRENEURSHIP IN THE COMMUNITY

## ABOUT THE PROJECT

Across Europe, entrepreneurship drives innovation, competitiveness, job creation and growth. It allows new innovative ideas and concepts to be turned into successful ventures and unlock individuals' potential. Entrepreneurship in the creative sector is essential to ensure the continued development of societies and is at the heart of the well-being of the broader economy. Aside from entrepreneurship, encouraging creative and cultural dialogue can be developed as crucial components of local economic development.

Cultural and creative industries are often strongly dependent on location. They feed on local traditions. Therefore, they are especially suitable channels to share the energies of place and further serve communities and contribute to community cohesion.

Making Space 365 partners believe that employing creative methods in community contexts by bringing different decision-makers together can benefit wider society by creating shared creative spaces and projects that explore society's everyday needs in a 'bottom-up' development process.
