

MAKING SPACE 365

MAXIMISING THE POTENTIAL OF YOUNG PEOPLE THROUGH
CREATIVE AND CULTURAL ENTREPRENEURSHIP IN THE COMMUNITY

OUR SECOND TRANSNATIONAL PROJECT MEETING

In late March 2022, the second transnational partner meeting for the Erasmus+ project Making Space 365 was held in the beautiful city of Vilnius in Lithuania.

This meeting aimed to support the project quality management and review progress and milestones achieved. It was a thoroughly productive two days, and partners are happy to report that all four project outputs now have a clear and optimised vision.

The time was used to review the results of the Needs Analysis and theoretical and literature review of the Making Space 365 Framework for Social, Civic & Community Education and Engagement. And also set our final deadlines and strategy for developing the Making Space 365 Framework for Social, Civic & Community Education and Engagement.

PROJECT DEVELOPMENT TO DATE

The Making Space 365 Civic Action and Creative Youth Event Guidebook framework was agreed. This output is off to a flying start, and we look forward to getting this valuable tool into the hands of our respective communities.

The consortium signed off on the guidelines and a prototype design for the Making Space 365 Creative Calendar. Soon templates will be distributed, and all partner countries will begin developing content for their topics.

This is an exciting and rare opportunity within the Erasmus+ programme as this calendar will go into physical production. We are very excited to adorn your offices, schools and community centres in 2023!

OUR NEXT STEPS

The Making Space 365 project will provide a Learning, Teaching, Training Activity held in Kalamata, Greece, from May 3rd to 5th. It will bring youth educators and youth leaders from all partner countries together in a collaborative learning environment to train and prepare them to use the proposed new approaches and resources in their work with young people.

The LTTA will invite youth and other community education staff and participants to become familiar with the Making Space 365 project and participate in a hands-on transnational training opportunity where they will have the chance to experience and share different approaches with their youth leader peers from overseas.
